

Final project report will be evaluated by the respective department of the study.

Incompletion of Research Project

Failure to complete the research project and/or submit the agreed upon work product by the end of the respective semester will result in an incomplete (Grade - I) for the final grade.

Publication Policy

Main objective of the research project is to develop student's skill in planning and conducting a research and preparing a research report at undergraduate level.

Presentations and publications generated from the research project should be promoted by the supervisor.

All publications should have name of the student as first author with the name of the supervisor as the last author. Copyrights of the publications belong to the Institute of Indigenous Medicine.
